Micromedex® solutions homepage
1. The most frequently used tools are shown on the Toolbar. It is always displayed, and you can select Home at any time to return to the homepage.
2. There are options to search by All, Drug, Disease or Toxicology content. Intelligent search provides suggestions for spelling errors and direct access to Dosing, Adverse Effects, Indications, Interactions and focused searches for Drugs that treat and Drugs that cause.
3. Quick and easy access to Download Mobile Apps.

Search landing page
1. Drug Classes links and Routes summary are always displayed.
2. Quick Answers, In-Depth Answers and All Results are provided.
3. Active headings provide direct access to specific sections of content.
4. Intelligent search retains the last search term.
5. Direct access to Salt/Base drug formulations when available.
6. Flag toggle for just Health Canada-approved drugs
7. Access to Related Results within core content sets and other data sources will be returned in-context with the search term.
8. Canadian-approved Adult Dosing, Pediatric Dosing, Labeled Uses, Dose Adjustments and Boxed Warnings.

In-depth answers and all results
1. Navigate between Quick Answers and In-Depth Answers using the hyperlink to remain in same section being viewed.
2. This page contains direct access to View Full Document and Print.
3. Easy access to Expand or Collapse to customize viewing area.
4. All Results include Related Results and Filter by subject.
5. Drug Consults with direct links to Health Canada information on drug shortages.
**Full document searching**

1. Enter a search term to identify and navigate to all instances of the term.
2. The active term is highlighted orange to identify where you are in the document; next and previous terms are highlighted yellow.
3. Navigate to specific sections within full document.

**Patient education**

**Patient Education** has two sections:
1. **Medication Counseling** contains information for the healthcare professional to assist in patient counseling.
2. **Patient Handouts** features consumer drug information that may be printed for the patient.

**Drug interaction searching**

1. From the Toolbar, select the **Drug Interactions** tab.
2. Type the drug name (brand or generic) in the **Search** field.
3. **Select** the drug and click the **Add** (right arrow) button, or remove the drug by clicking the **Remove** (left arrow) button.
4. **Add Allergies**, if known.
5. Once all drugs are added, click the **Submit** button at the bottom right of the screen.

**IV compatibility searching**

1. From the Toolbar, select the **IV Compatibility** tab.
2. Type the drug name (brand or generic) in the **Search** field.
3. Select the drug and click the **Add** (right arrow) button, or remove the drug by clicking the **Remove** (left arrow) button.
4. Repeat the process until all drugs are added, then click the **Submit** button at the bottom right of the screen.

**FDA and non-FDA uses (on-/off-label indications and dosing)**

1. From the section headings, access **FDA Uses** or **Non-FDA Uses**.
2. **Non-FDA Uses** reviews the indications and associated **Strength of Recommendation** and **Strength of Evidence** in Quick Answers.
3. If dosing is required, select **Adult** or **Pediatric Dosing** and review **Quick Answers**.
4. If off-label dosing is not listed in Quick Answers, select **In-Depth Answers**. Then click on the desired indication to review dose recommendation.
5. Availability of off-label dosing is evidence-based; not all off-label indications will have a dosing recommendation.
